PUBLICATION INFORMATION FOR  
STATISTICS AND FORECAST BRANCH  
STATISTICS TEAM'S PUBLICATIONS

Below is a list of the publications compiled by the Office of Aviation Policy, Plans, & Management Analysis/Planning Analysis Division/Statistics & Forecast Branch. Questions may be directed to us by phone: (202) 267-8032 or 267-9942, or by writing Federal Aviation Administration, Statistics & Forecast Branch (APO-110), 800 Independence Avenue, SW, Washington, DC 20591.

**Airport Activity Statistics of Certificated Route Air Carriers** is a joint publication of the Federal Aviation Administration (FAA) and the Research & Special Programs Administration (RSPA). RSPA furnishes airport activity data on certificated route air carriers; FAA organizes/publishes it. Included in the data are passenger enplanements and tons of enplaned freight and mail. Scheduled/nonscheduled service shown by airport and carrier are also included. Breakdown of data includes departures/enplanements/cargo/mail by airport, carrier & type of operation, and type of aircraft.

Latest edition: . . . . .Calendar Year 1993  
Order from: . . . . .U.S. Government Printing Office, or  
National Technical Information Service  
1994 information will be available: . . .July 1993  
Date next publication is scheduled: . . .September 1995 (1994 data)  
Person to contact: . . . . .Patricia Beardsley

**Census of U.S. Civil Aircraft** is an annual publication that includes statistical data on the registered civil fleet, air carrier aircraft, and general aviation aircraft--both registered and active, detailed reports for general aviation aircraft by owner's state and county, and registered aircraft by make and model.

Latest edition: . . . . . Calendar Year 1992  
Order from: . . . . . U.S. Government Printing Office, or  
National Technical Information Service  
1993 information will be available: . . . September 1994  
Date next publication is scheduled: . . . November 1994 (1993 data)  
Person to contact: . . . . . Patricia Beardsley

FAA Air Traffic Activity furnishes terminal and en route air traffic activity information (e.g., takeoffs & landings, flight plans filed) of the National Airspace System. The data is collected/compiled from the FAA-operated Airport Traffic Control Towers, Air Route Traffic Control Centers, Flight Service Stations, Approach Control Facilities, and FAA-contracted towered airports.

Latest edition: . . . . . Fiscal Year 1993  
Order from: . . . . . U.S. Government Printing Office, or  
National Technical Information Service  
1994 information will be available: . . . March 1995  
Date next publication is scheduled: . . . July 1995 (1994 data)  
Person to contact: . . . . . Nancy Trembley

**FAA Statistical Handbook of Aviation** is a convenient source for historical data. It presents statistical information pertaining to the FAA, the National Airspace System, Airports, Airport Activity, U.S. Civil Air Carrier Fleet, U.S. Civil Air Carrier Operating Data, Airmen, General Aviation Aircraft, Aircraft Accidents, and Aeronautical Production & Import/Export.

Latest edition: . . . . .Calendar Year 1992  
Order from: . . . . .U.S. Government Printing Office, or  
National Technical Information Service  
1993 information will be available: . . . .Various 1994  
Date next publication is scheduled: . . . .December 1994 (1993 data)  
Person to contact: . . . . .Patricia Beardsley

**General Aviation Activity Survey** is an annual report that presents the results of the general aviation activity survey conducted to obtain information on the activity of the U.S. registered general aviation aircraft fleet. The report contains estimated flying time, landings, fuel consumption, lifetime airframe hours, and engine hours of the active general aviation aircraft by manufacturer/model group, aircraft type, state and region of based aircraft, and primary use. Note: this year's survey did not include avionics information.

Latest edition: . . . . .Calendar Year 1992  
Order from: . . . . .U.S. Government Printing Office, or  
National Technical Information Service  
1993 information will be available: . . . .August 1994  
Date next publication is scheduled: . . . .November 1994 (1993 data)  
Person to contact: . . . . .Patricia Beardsley

**General Aviation Pilot and Aircraft Activity Survey** includes data on the type and source of aircraft flight plan and weather information services, trip length in time and distance, pilot age and certification, estimates of total 1989 general aviation operations, fuel consumption and aircraft miles flown. The survey was conducted from June thru September 1990 by the FAA with the assistance of the Civil Air Patrol.

Latest edition: . . . . .Calendar Year 1990  
Order from: . . . . .Statistics and Forecast Branch, or  
National Technical Information Service  
Date next publication is scheduled: . . . .unknown at this time  
Person to contact: . . . . .Patricia Beardsley

**Rotorcraft Activity Survey** presents the results of a special, one-time survey. The report contains breakdowns of active rotorcraft, annual flight hours, average flight hours, and other statistics by rotorcraft type, manufacturer/model group, region and state of based aircraft, and primary use. Also included are law enforcement and public use rotorcraft, lifetime airframe hours, engine hours, estimated miles flown, and estimated number of landings.

Edition: . . . . .Calendar Year 1989  
Order from: . . . . .Statistics and Forecast Branch, or  
National Technical Information Service  
Person to contact: . . . . .Patricia Beardsley

U.S. Civil Airmen Statistics is an annual study of detailed airmen statistics. It contains statistics on pilot and nonpilots and the number of certificates issued.

Latest edition: . . . . .	Calendar Year 1993
Order from: . . . . .	Statistics and Forecast Branch, or National Technical Information Service
1994 information will be available: . . .	February 1995
Date next publication is scheduled: . . .	June 1995 (1994 data)
Person to contact: . . . . .	Patricia Beardsley

## ORDER INFORMATION

The U.S. Government Printing Office (GPO) operates U.S. Government bookstores all around the country where you can browse through the shelves and take your books home with you. Naturally, these stores cannot stock all of the more than 21,000 titles in their inventory, but they will order any government book currently offered for sale and have it sent directly to you. All the bookstores accept VISA, MasterCard, or Superintendent of Documents deposit account orders. For more information, write to Superintendent of Documents, P.O. Box 371954 Pittsburgh, PA 15250-7954; or call them at (202) 783-3238; or contact any of the following GPO Bookstores.

Washington, DC 20005  
(202) 653-5075

## FOREWORD

The publication has taken on a whole new look. All the chapters and tables have been renumbered. The table of contents lists the new table numbers and, as a convenient reference, the previous table numbers.

This FAA publication furnishes terminal and en route air traffic activity information of the National Airspace System. The data have been reported by the FAA-operated Airport Traffic Control Towers (ATCTs), the Air Route Traffic Control Centers (ARTCCs), all Flight Service Stations (FSSs), the Approach Control Facilities, and the FAA-contracted ATCTs. These reports are used as a guide in determining the need for larger or additional facilities and possible increases in personnel at existing facilities.

The following forms are used for reporting data:

- FAA Form 7230-1, Airport Traffic Record
- FAA Form 7230-12, Instrument Approaches Monthly Summary
- FAA Form 7230-13, Flight Service Station Daily Record
- FAA Form 7230-14, ARTCC Operations Daily Summary
- FAA Form 7230-26, Instrument Operations

Facsimiles of these forms are shown in Appendix 1.

The tables and charts in Chapter 1 are national 5-year and 30-year trends for ARTCC aircraft handled, for airport operations at ATCTs, for IFR operations at terminals, and for total flight services at all types of FSSs.

Chapter 2 lists en route IFR operations handled by ARTCCs by aviation category, by region and by individual center.

Chapter 3 shows airport operations (takeoffs & landings) at ATCTs by aviation category including itinerant vs. local. This information is listed by region, by state, and by individual airport. Several rank tables are also included.

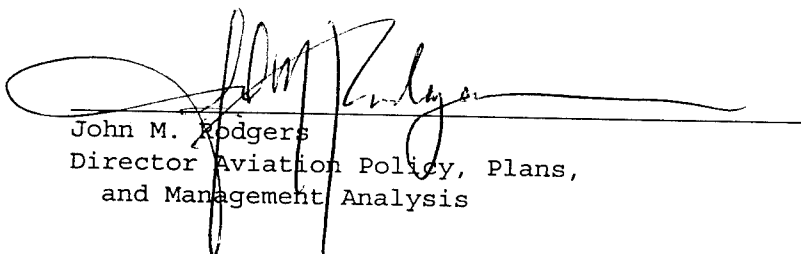

Chapter 4 tables are instrument operations at terminals. Terminals include TRACONS, RAPCONS, ATCTs, and CERAPs. Table 4-1 is broken down by aviation category including primary operations vs. secondary operations vs. overflights. This information is also listed by region, by state, and by individual facility. Rankings based on total instrument operations are provided in subsequent tables.

Chapter 5 includes summaries of instrument approaches by aviation category at ARTCC areas and at terminal radar approach control facilities and their secondary airports.

Airport and instrument operations for FAA-contracted ATCTs can be found in Chapter 6. Except for rank tables, the information is displayed identically as Chapters 3 & 4 above.

Data for Flight Service Stations--whether they are automated or nonautomated, international or domestic--appear in Chapter 7. These tables include total flight services, aircraft contacted, flight plans originated, pilot briefs, airport advisories, and radio contacts by region, by state, and by individual stations. Rank tables are also included in this chapter.

In general, rank order tables are provided to give the user a picture of the busiest facilities in the system. The historical tables are included to show national-level changes in growth. The appendices provide administrative-type information regarding the facilities, i.e., the facility's type or level or hours of operation, the number of each type of facility per region and state, recent commissioning or decommissioning of facilities, etc.

John M. Rodgers  
Director Aviation Policy, Plans,  
and Management Analysis

FAA Form 7230-14 (8-78) SUPERSEDES PREVIOUS EDITION 2nd FOLD 1st FOLD

This form is designed to enable users to arrive at the GRAND TOTAL by folding the form in the position "DOMESTIC AIRCRAFT HANDLED" (front) and Oceanic Operations "TOTAL" (reverse) columns side by side. 1. Fold on fold marks provided in the top and bottom margins. 2. Align the column headings and heavy horizontal rules on the front with matching rules on the reverse. 3. Add the two columns to arrive at "GRAND TOTAL". 4. Unfold before mailing to AMS-200.

ALL Centers reporting Oceanic Operations MUST COMPLETE the above items.

## GLOSSARY

**AFSS**—Automated Flight Service Station.

**AIFSS**—Automated International Flight Service Station.

**AIR CARRIER**—An air carrier holding a Certificate of Public Convenience and Necessity issued by the Department of Transportation to conduct scheduled services over specified routes and a limited amount of nonscheduled operations.

**AIR ROUTE TRAFFIC CONTROL CENTER (ARTCC)**—A facility established to provide air traffic control service to aircraft operating on an IFR flight plan within controlled airspace and principally during the en route phase of flight. When equipment capabilities and controller workload permit, certain advisory/assistance service may be provided to VFR aircraft. (Chapter I).

**AIR TAXI**—An air taxi operator which: (1) performs at least five round trips per week between two or more points and publishes flight schedules which specify the times, days of the week and places between which such flights are performed; or (2) transports mail by air pursuant to a current contract with the U.S. Postal Service.

**AIR TRAFFIC**—Aircraft operating in the air or on airport surface, exclusive of loading ramps and parking areas.

**AIR TRAFFIC HUB**—Air traffic hubs are not airports; they are the cities and Standard Metropolitan Statistical Areas requiring aviation services. Communities fall into four classes as determined by each community's percentage of the total enplaned passengers in scheduled carriers in the 50 U.S. states, the District of Columbia, and other U.S. areas designated by the Federal Aviation Administration.

L	Large	1.00%
M	Medium	0.25% to 0.99%
S	Small	0.05% to 0.24%
N	Nonhub	Less than 0.05%

**AIRCRAFT CONTACTED**—Aircraft with which the flight service stations have established radio communications contact. One count is made for each en route landing or departing aircraft contacted by a flight service station regardless of the number of contacts made with an individual aircraft during the same flight. A flight contacting five FSSs would be counted as five aircraft contacted. (Chapter V).

**AIRCRAFT HANDLED**—See IFR Aircraft Handled.

**AIRPORT ADVISORY SERVICE**—A service provided by flight service stations at airports not served by a control tower. This service consists of providing information to arriving and departing aircraft concerning wind direction/speed-favored runway, altimeter setting, pertinent known traffic/field conditions, airport taxi routes/traffic patterns, and authorized instrument approach procedures. This information is advisory in nature and does not constitute an ATC clearance. (Chapter V).

**AIRPORT OPERATIONS**—The number of arrivals and departures from the airport at which the airport traffic control tower is located. There are two types of operations: local and itinerant. (Chapter II).

1. Local operations are performed by aircraft which:

- (a) Operate in the local traffic pattern or within sight of the airport,
- (b) Are known to be departing for, or arriving from flight in local practice areas located within a 20-mile radius of the airport;
- (c) Execute simulated instrument approaches or low passes at the airport.

2. Itinerant operations are all aircraft operations other than local operations.

**AIRPORT TRAFFIC CONTROL TOWER (ATCT)**—A terminal facility which, through the use of air/ground communications, visual signaling, and other devices, provides ATC services to airborne aircraft operating in the vicinity of an airport and to aircraft operating on the movement area. There are five types of ATCTs: radar, limited radar, nonradar, VFR, and contracted towers. (Chapter II).

**APPROACH CONTROL FACILITY**—A terminal air traffic control facility providing approach control service. (Chapter IV).

**APPROACH CONTROL SERVICE**—Air traffic control service provided by an approach control facility for arriving and departing VFR/IFR aircraft, and on occasion, en route aircraft. At some airports not served by an approach control facility, the ARTCC provides limited approach control service. (Chapter IV).

**ARTCC**—Air Route Traffic Control Center.

**ATC**—Air Traffic Control.

**ATCT**—Airport Traffic Control Tower.

**AUTOMATED FLIGHT SERVICE STATION**—See Flight Service Station.

**CENTER RADAR APPROACH CONTROL (CERAP)**—A combined air route traffic control center (ARTCC) and a terminal radar approach control facility (TRACON).

**CONTRACTED TOWER**—See FAA Contract ATCT.

**DEFENSE VISUAL FLIGHT RULES (DVFR)**—Rules applicable to flights within an Air Defense Identification Zone conducted under the visual flight rules in Federal Air Regulation, Part 91. (Chapter V).

**FAA**—Federal Aviation Administration.

**FAA CONTRACT ATCT**—A low activity (Level I) VFR ATCT providing air traffic control services for a municipality or subdivision thereof while under contract with the FAA. The municipality has the option of using its own employees or subcontracting for these services. (Chapter VI).

**FLIGHT SERVICE STATION (FSS)**—Air traffic service facilities within the National Airspace System which provide preflight pilot briefings and en route communications with VFR flights, assist lost IFR/VFR aircraft, assist aircraft having emergencies, relay ATC clearances, originate, classify, and disseminate Notices to Airmen, broadcast aviation weather and NAS information, receive and close flight plans, monitor radio NAVAIDS, notify search and rescue units of missing VFR aircraft and operate the national weather teletypewriter systems. In addition, at selected locations, FSSs take weather observations, issue airport advisories, administer airmen written examinations, and advise Customs and Immigration of transborder flight. (Chapter V).

**FSS**—Flight Service Station.

**GENERAL AVIATION OPERATIONS**—Takeoffs and landings of all civil aircraft, except those classified as air carriers or air taxis. (See also Airport Operations). (Chapter II).

**IFR**—Instrument Flight Rules.

**IFR AIRCRAFT HANDLED**—The number of IFR departures multiplied by two, plus the number of IFR overs. This definition assumes that the number of departures (acceptances, extensions, and organizations of IFR flight plans) is equal to the number of landings (IFR flight plans closed). (Chapter I).

**IFR DEPARTURES**—An IFR flight which originates in an ARTCC's area and enters that center's airspace. (Chapter I).

**IFR OVERS**—An IFR flight that originates outside the ARTCC area and passes through the area without landing. (Chapter I).

**IFSS**—International Flight Service Station.

**INSTRUMENT FLIGHT RULES (IFR)**—Rules governing the procedures for conducting instrument flight.

**INSTRUMENT OPERATION**—Arrivals or departures of an aircraft in accordance with an IFR flight plan or special VFR procedures or an operation where IFR separation between aircraft is provided by a terminal control facility. There are three kinds of instrument operations:

1. Primary Instrument Operations: arrivals and departures at the primary airport which is normally the airport at which the approach control facility is located.
2. Secondary Instrument Operations: arrivals and departures at all the secondary airports combined.
3. Overflights: operations in which an aircraft transits the area without intent to land.

**INTERNATIONAL FLIGHT SERVICE STATION (IFSS)**—A central operations facility in the flight advisory system, manned and equipped to control aeronautical point-to-point telecommunications, and air/ground telecommunications with pilots operating over international territory or waters, providing flight plan following, weather information, search and rescue action and other flight assistance operations. (Chapter V).

**ITINERANT OPERATIONS**—See Airport Operations.

**LIMITED RADAR ATCT**—Airport traffic control towers providing radar approach control service that requires only limited vectoring, as well as to handle takeoffs and landings.

**LOCAL OPERATIONS**—See Airport Operations.

**MILITARY OPERATIONS**—All classes of military operations.

**NONRADAR ATCT**—An airport traffic control tower providing approach control service without the use of radar.

**PILOT BRIEFING**—A service provided by a FSS or IFSS to assist pilots in flight planning. Briefing items may include weather information, NOTAMS, military activities, flow control information, and other items as requested.

**RADAR AIR TRAFFIC CONTROL FACILITY (RATCF)**—An air traffic control facility, located at a U.S. Naval or Marine Corps Air Station, utilizing surveillance, and normally, precision approach radar and air/ground communication equipment to provide approach control services to aircraft arriving, departing or transiting the airspace controlled by the facility. The facility may be operated by the FAA, the USN, the USMC, or the FAA & USN and service may be provided for both civil and military airports. (Chapters II, III, & IV).

**RADAR APPROACH CONTROL (RAPCON)**—An air traffic control facility, located at a U.S. Air Force Base, utilizing surveillance, and normally, precision approach radar and air/ground communication equipment to provide approach control services to aircraft arriving, departing or transiting the airspace controlled by the facility. The facility may be operated by the FAA or the USAF and service may be provided for both civil and military airports. (Chapters II, III, & IV).

**RADAR ATCT**—An airport traffic control tower that uses radar and nonradar capabilities to provide approach control services to aircraft arriving, departing, or transiting airspace controlled by the facility. It provides radar ATC services to aircraft operating in the vicinity of one or more civil and/or military airports in the terminal area

**RADIO CONTACTS**—The initial radio call-up to a flight service station by en route aircraft, which includes a complete interchange of information and a termination of the contact. (Chapter V).

**RAPCON**—See Radar Approach Control.

**RATCF**— See Radar Air Traffic Control Facility.

**TERMINAL RADAR APPROACH CONTROL (TRACON)**—An FAA air traffic control facility using radar and air/ground communications to provide approach control services to aircraft arriving, departing, or transiting the airspace controlled by the facility. Service may be provided to both civil and military airports. (Chapters II, III & IV).

**TOTAL FLIGHT SERVICES**—The sum of flight plans originated and pilot briefs multiplied by two, plus the number of aircraft contacted. No credit is allowed for airport advisories or radio contacts. (Chapter V).

**VFR TOWER**—An airport traffic control tower providing takeoff and landing services only. It does not provide approach control services (Chapter II).

**VISUAL FLIGHT RULES (VFR)**—Rules that govern the procedures for conducting flight under visual conditions. The term (VFR) is also used in the U.S. to indicate weather conditions that are equal to or greater than minimum VFR requirements. In addition, it is used by pilots and controllers to indicate type of flight plan. (Chapter V).
